robidaz@gmail.com
linkedin.com/in/zach-robida

Design Lead with eight years delivering federal supply chain software at Manhattan Associates. Automation-first: built the AI-driven documentation platform a 25-person team designs, builds, and tests from, and founded Holigram, an AI-powered private data home.

Experience

Manhattan Associates PSO Government Division — 2018 – Present

Design Lead — 2024 – Present

- Lead end-to-end functional design for FEMA's MATM/MASC platform upgrade, authoring the Solution Design Document and orchestrating 120+ slide design overview presentations delivered to FEMA TMD stakeholders.
- Built and maintain the AI-driven documentation platform a 25-person functional and development team now builds and tests from, pairing Python/Jinja2 spec scaffolding with GitHub Copilot agents and Claude as live context.
- Pioneered the adoption of GitHub Copilot across the team, introducing AI-driven workflows for design documentation, mockup generation, and gap analysis — measurably reducing spec authoring time.
- Spearheaded the adoption of the Syncfusion Angular UI framework and Figma for the LogX1 application, reducing developer-functional back-and-forth and delivering a higher-quality product within budget.

Senior Consultant → Design Lead — 2021 – 2024

- Served as sole Design Lead for the $1M+ FEMA State Portal project on the LogX1 Angular platform, owning all design documentation, scope management, and client-facing presentations from kick-off through delivery.
- Led the design of a custom Capacity Finder solution enabling mass bid solicitation and awarding for FEMA transportation equipment and lanes, facilitating in-person stakeholder design sessions to achieve conceptual design sign-off.
- Took full ownership of the LSCMS monthly release process — revamped Jira dashboards, established bi-weekly defect prioritization cadence, and managed the full CAB compliance trail that withstood FedRAMP audit scrutiny.

Consultant → Senior Consultant — 2018 – 2021

- Designed and developed Manhrobo, a Python-based automated testing framework that replaced 80% of manual consultant testing — reducing a full regression cycle from one week of 6 consultants' work to 30 minutes.
- Architected a fully autonomous DAST vulnerability detection and reporting pipeline on AWS (WebInspect + Nessus + S3 + Athena + Jira), saving hundreds of hours of manual vulnerability management per year.
- Contributed to the FedRAMP cloud migration for FEMA's LSCMS solution, pioneering all Windows server hardening procedures, GPO-based DISA STIG alignment, and continuous monitoring SOPs.

Itron, Inc. West Union, SC · **Manufacturing Engineering Co-Op** — 2015 – 2016

- Sole mechanical engineer on a Kaizen team; designed custom ESD workstations while managing a $30,000 budget.

Ventures

Holigram Founder — A private data home for everything you like, own, and experience, with an assistant that answers only from what you actually keep. Founded, designed, and built end to end. holigram.ai — June 2026 – Present

Hourglass Trader AI Consultant — An options-trading research platform and community, founded by a friend. hourglasstrader.com

Skills

AI & Automation	GitHub Copilot (Instructions, Prompting, Agents), Claude Code & Agentic Workflows, MCP Servers & LLM APIs, Glean Collections & Memories
Design & UI Systems	Functional / Extension Design, Figma, Angular Components, UI/UX Mockups & Prototyping
Programming & Scripting	Python, SQL, HTML / CSS / JavaScript, Jinja2 Templating
Systems & Architecture	AWS (EC2, S3, SSM, Athena), FedRAMP / Security Compliance, Manhattan Active Supply Chain, Google Cloud (Cloud Run, Cloud SQL) & Firebase
Data & Analysis	Python Pandas / NumPy, SQL Query Development, Excel / Macro Development, Amazon Athena / Data Pipelines
Tools & Platforms	WebInspect / Nessus (DAST/SAST), Git / GitHub, ServiceNow / ServiceDesk, Jira / Confluence

Education

B.S. in Mechanical Engineering Clemson University, Clemson, SC — 2013 – 2018

- 4 Semesters of Co-Op Experience

Sustainable Cities of Scandinavia Program Linnaeus University, Kalmar, Sweden — Summer 2017

- Selected as commencement speaker out of 300 students
